already shaded so I don't even feel like I did the work. pretty.

Another lovely grayscale book by Alena Lazareva.

Fashion Life by Alena Lazareva has 23 grayscale illustrations of Alena's beautiful digitally produced artwork, this time it is with a fashion theme. The book is A4 in size and glue bound with a glossy coloured cover of one of Alena's originals, the illustrations of which is inside the book for you to colour. It is self-published on Createspace and this means that the paper is quite thin (copier type paper) although it has improved a lot recently as it is smoother

and takes pencils much better than it did without lots of blending. The pages are one-sided so if you wish to use markers (just use a spare sheet of paper behind the one you are colouring in case of bleed-through). The illustrations however are beautiful grayscale versions of Alena's stunning digital paintings and most contain both grayscale and linework elements (often the leaves and flowers are simpler line work). Some find the idea of grayscale daunting but it is actually easier than colouring line-work as most of the work has already been done. You can just simply colour over and allow the highlights and shadows to show through, or you can choose to use three colours of light, medium and dark. It can be as easy or complicated as you wish it to be. If you've never tried grayscale I highly recommend at least having one book in your collection to try it out for yourself, and this would be an ideal one for beginners as the tones and highlights are well done; it's not too dark or light and you can still see lines to follow unlike photographs which I find harder as some of the picture can be out of focus. Many of Alena's colouring books feature her wonderful fantasy art, this book however concentrates solely on fashion. There are full clothed figures as well as close ups. Some have no backgrounds while others are placed within a setting. There is also pages of eyes, shoes, nails and polishes which is great for practising how to colour these for your other colouring books as the grayscale shows where the shading is so you become familiar. It is for this reason alone every serious colourist should have at least one grayscale colouring book as they are a great teaching tool. There is also a bonus 8 full page pictures to colour from Alena's other books included at the back. 6 of these are grayscale and 2 are line art illustrations. Another lovely book from Alena, and one for all you fashionistas out there! I was kindly sent a copy from the artist, however I was under no obligation to write a review and have done so in order to inform and share my opinion.

This is a grayscale coloring book that features 23 images of beautiful woman modeling all forms of fashion. At the end of the book, as Lazareva always includes, are bonus preview coloring pages from some of her other books. This is a fun book with images of glamorous women in gorgeous gowns, or fun dresses, and playful or decadent accessories. If you like fashion this one has something you'll love to color. The images range from simple (like the example I colored) to elaborate that fill the page. Images are on one side of the page only and stop before the spine so you can easily tear out a page. The page weight is medium. If you use markers there will be some bleed-through. The grayscale lends well to colored pencils, but also works with markers (I used both in the example) for shading. So if you're not an expert shader, this is a great book to give you some

confidence because the shading is already on the page for you!

Ã Â A stunning book! I love all of Alena Lazareva's coloring books and this one is no exception! Very pretty and well done. The images range from beautiful fashion, portraits, make up, close ups of beautiful eyes, and other gorgeous images. All of them are single sided and none of them run into the seams. I would recommend this book for all ages and most mediums. Colored pencils will work great, gel pens, markers, fine liners, and pastels may also be used. I recommend using card stock in between the pages for wet mediums. I highly recommend the book. It doesn't disappoint.

GORGEOUS! This book is so beautiful. Love the Grayscale images. The designs are printed on one side of the page. The page is non-perforated but I find it opens to a flat position very easily. I use and recommend the use of a blotter page of either heavy weight paper or several sheets of regular white paper. Each illustration is crisply printed in grey ink that is perfect for grayscale colouring. I highly recommend this book .

I love this book. I have always loved this artist. I have all of her books and cant wait for her next one. this one is different and has many interesting pages to color. there are some that we can practice doing eyes. Page upon page of different things to color. a very enjoyable color book

I recently purchased this book and am very pleased I did! This artist is phenomenal in what she does! If you like beauty and glamour and also like grayscale this is a great book to get! Her pages are not overly detailed yet detailed enough to keep your interest, but open enough that you can add your own details if you're feeling the challenge to do so! Quality is great and price reasonable!
