Has all info I need for my busines

Nice and as described.Thanks

maybe i was sent an old copy as the cover is very, very different than what is shown.does have the serial numbers for hundreds of cars...but not for the one car (major usa manufacturer)and year that i needed. unfortunately no way to see if the book has the numbers one needs before one buys it.

This is a great reference book for the serial numbers of almost any vehicle make you can think of. I'm glad I ordered it, but sad that it's not more up to date.
