Customer Reviews

4 1/2 - 5 stars for the complete 3 part story. Excellent tale. I look forward to more about Signy's journey! Very enjoyable tale set in medieval Scandinavia. As a coming of age story it will appeal particularly to young adults. Excellent character development. I loved that when read on my Kindle, many archaic terms are found in its dictionary, at a touch of the finger.* Please note that this only

the last of 3 installments that make up the complete novel. You will need to invest in Parts 1 & 2 and re them in order to enjoy the whole novel. I usually don't invest my time in this form of entertainment (installment or serial stories rather than complete novel purchases), but due to the historical period, decided to take chance on it. I'm glad I did. I'd like to thank N.H. Kerr for providing me with part 1 through Instafreebie. Try it like I did and get engrossed in this fast fun read. I look forward to more by this author.

This was a good book. I received the first book free but bought the second and third. It had an engaging story line with well developed characters. I am hoping there are more books following so I can follow along with Signy's life. I loved how the history and belief system was woven into these books and learned quite a bit by reading this book.

This review is of all three parts of the Signy Kraka book. I liked the story, and the author's writing drew me in well enough, but the end comes too soon. Literally. There are at least 3 story lines that are not resolved and just left hanging, which I won't mention due to spoilers. Is part 4 in the works, or is the author setting up a sequel? You really can't tell, and that's why I only gave it 4 stars.

Love the story line and the historical knowledge. Hope to read a lot more about Signy Kraka and her life as Volva.

I loved the story! Great for young adults as well! Lots of history combined with adventure.

Extremely well written. In your head is appearing a video showing the surroundings where you are watching the characters' interactions and you feel you learn a lot about their individual ways of thinking, inflected by each character's position in the community. You get caught and become longing for more on many of the characters and what comes next in action, overall I hope our waiting will be short. I am sure it is worthwhile.

Good story line and character development. I did not anticipate the plot. Enjoyed reading Signy Kraka and look forward to more books. I prefer not breaking the book up though.

Wonderful story. I couldn't put it down. Please write another! I don't want the story to be over!
